Description

Football player whose details are analyzed

Club for which the player plays for

A team's performance over a selected timeframe (to be used for analysis)

CF (Center Forward), DMF (Defensive Mid-fielder) etc

Age of player

The perceived value of a certain player in the football field (taking into account multiple variables such a

Date when a player's contract with a club expires

Number of matches played per season (average)

Number of minutes played per season (average)

A successful shot

(Expected goals) The likelihood of scoring for every shot made in the game

The last action of a player from the goalscoring team, prior to a goal

(Expected assists) The likelihood that a given pass will result in a goal.

Number of duels per 90 minutes of play (average)

Percentage of won duels

The birthplace of a player

The player's passport(s)' countries

Which foot the player prefers to use in matches

Height of player

Weight of player

Whether the player has been temporarily transferred from their parent club to another club for a specific p

Number of successful defensive actions a player makes per 90 minutes of play (average). Defensive actions include various activities a player performs to prevent the opposing team from advancing or

Number of defensive duels per 90 minutes of play (average)

Number of won defensive duels per 90 minutes of play (average)

Number of aerial duels a player engages in per 90 minutes of play (average). Aerial duels involve contests in the air between players, typically when challenging for high balls, whether during defensive

Percentage of won aerial duels

Number of sliding tackles per 90 minutes of play(average). A sliding tackle is a defensive maneuver where a player attempts to win possession of the ball by sliding on the ground and making contact with Average of sliding tackles with possession values takes into account. Possession-adjusted (styled as PAdj or Opp30) is a method to calculate defensive statistics to take possession values into account.

Number of blocked shots per 90 minutes of play (average)

Number of interceptions per 90 minutes of play (average). Interceptions refer to defensive actions where a player gains possession of the ball by intercepting a pass or blocking an opponent's attempt

Average of interceptions with possession values taken into account. Possession-adjusted (styled as PAdj or Opp30) is a method to calculate defensive statistics to take possession values into account

Number of fouls per 90 minutes of play (average). A foul is an offence committed by a player

Disciplinary action by the referee that can be shown on an action that is a foul, or misconduct and unsportive behaviour. A yellow card is a cautionary action, and therefore the player can continue

Number of yellow cards per 90 minutes of play (average)

Disciplinary action by the referee that can be shown on an action that is a foul, or misconduct and unsportive behaviour. A red card is a more severe disciplinary action, and therefore the player will be

Number of red cards per 90 minutes of play (average)

Number of successful attacking actions a player makes per 90 minutes of play (average). "Attacking actions" refer to various activities that players undertake to advance their team's position, create goal-

Number of goals per 90 minutes of play (average)

Number of goals scored by a player or a team, excluding goals scored from penalty kicks

Number of duels per 90 minutes of play (average)

Number of expected goals per 90 minutes of play (average)

Goals scored by a player using their head

Number of head goals per 90 minutes of play (average)

An attempt towards the opposition's goal with the intention of scoring

Number of shots per 90 minutes of play (average)

Shot on target is a successful attempt that forces the goalkeeper to make a save to prevent the ball from going into the net (it doesn't actually result in a goal; expressed in a percentage)

The efficiency of a player or team in converting goal-scoring opportunities into actual goals (expressed in a percentage)

Number of assists per 90 minutes of play (average)

Number of crosses per 90 minutes of play (average). A "cross" refers to a type of pass delivered from a wide position into the penalty area in front of the opponent's goal

Number of successful and precise deliveries made by a player into the penalty area or a specific target (expressed as a percentage)

Number of crosses delivered from the left flank by a player per 90 minutes of play (average)

Crosses delivered from the left flank by a player that are accurate or successful (expressed as a percentage)

Number of crosses delivered from the right flank by a player per 90 minutes of play (average)

Crosses delivered from the right flank by a player that are accurate or successful (expressed as a percentage)

Number of crosses delivered into the opponent's penalty area (goal box) by a player per 90 minutes of play (average)

Number of successful dribbles a player completes per 90 minutes of play (average)

Percentage of successful dribbles

Number of offensive duels per 90 minutes of play (average)

Number of offensive duels won (expressed as a percentage)

Number of times a player makes a touch on the ball inside the opponent's penalty area per 90 minutes of play (average)

Number of progressive runs made by a player per 90 minutes of play (average). Progressive runs refer to runs with the ball that advance the player and the team towards the opponent's goal, often resulting in a shot or assist

Number of passes received by a player per 90 minutes of play (average)

Number of long passes received by a player per 90 minutes of play (average)

Number of fouls a player endures per 90 minutes of play (average)

Number of passes completed by a player per 90 minutes of play (average)

Percentage of a player's total passes that are accurate or successful

Number of forward passes completed by a player per 90 minutes of play (average)

Percentage of a player's total forward passes that are accurate or successful

Number of backward passes completed by a player per 90 minutes of play (average)

Percentage of a player's total backward (back) passes that are accurate or successful

Number of sideways or lateral passes completed by a player per 90 minutes of play (average)

Percentage of a player's total lateral passes that are accurate or successful

Number of short to medium-range passes completed by a player per 90 minutes of play (average)

Percentage of a player's total short to medium-range passes that are accurate or successful

Number of long passes completed by a player per 90 minutes of play (average)

Percentage of a player's total long passes that are accurate or successful

Distance covered by a player's passes during a match (average in m)

Distance covered by a player's long passes during a match (average in m)

Expected assists per 90 minutes of play (average)

Number of shot assists a player provides per 90 minutes of play (average)

Number of second assists a player provides per 90 minutes of play (average). A second assist occurs when a player delivers the pass or makes the play that directly leads to the assist

Number of third assists a player provides per 90 minutes of play (average). A third assist occurs when a player delivers the pass or makes the play that directly leads to the second assist (the pass that sets up the third assist)

Number of smart passes per 90 minutes of play (average). A smart pass is a creative and penetrative pass that attempts to break the opposition's defensive lines to gain a significant advantage in attack.

Percentage of a player's total smart passes that are accurate or successful

Number of key passes per 90 minutes of play (average). A key pass is a pass that immediately creates a goal-scoring opportunity.

Number of passes to final third per 90 minutes of play (average). A pass into final third is any pass that originates outside of the final third and the next ball touch occurs within the final third

Percentage of a player's total passes that are accurate or successful when targeted toward the final third

Number of passes to the penalty area per 90 minutes of play (average)

Percentage of a player's total smart passes that are accurate or successful

Number of total through passes per 90 minutes of play (average). A through pass is a pass played into the space behind the defensive line for a teammate to contest.

Percentage of a player's total through passes that are accurate or successful

Number of deep completions per 90 minutes of play (average). Deep completion is a non-cross pass that is targeted to the zone within 20 meters of the opponent's goal

Number of deep completed crosses attempted per 90 minutes (average). A deep completed cross is a cross that is targeted to the zone within 20 meters of the opponent goal

Number of progressive passes normalized per 90 minutes (average). A progressive pass is a forward pass that attempts to advance a team significantly closer to the opponent's goal

Percentage of a player's total progressive passes that are accurate or successful

A situation where a team allows the opposing team to score a goal. When a goal is conceded, it means that the defensive efforts of a team have been unsuccessful in preventing the opposing team from scoring.

Number of goals conceded normalized per 90 minutes of play (average)

A shot on target faced by the goalkeeper

Number of shots against the goalkeeper per 90 minutes of play (average)

A match in which a team's defense successfully prevents the opposing team from scoring any goals

The effectiveness of a goalkeeper in stopping shots on target (expressed as a percentage)

Expected goals against a team in a given match or over a specific period

Expected goals against a team per 90 minutes of play

A situations in which a player or a team takes action that directly or indirectly prevent the opposing team from scoring.

Number of goals that a player or a team prevents per 90 minutes of play (average)

Number of back passes that a goalkeeper receives per 90 minutes of play (average)

Number of times a player successfully exits the defensive third with the ball per 90 minutes of play (average)

Number of aerial duels per 90 minutes of play (average)

Number of free kicks awarded or taken by a player or a team per 90 minutes of play (average). A free kick is awarded when a foul has been committed by an opponent in the defensive half.

Number of direct free kicks taken by a player or a team per 90 minutes of play (average). Unlike an indirect free kick, a direct free kick allows the attacking team to score directly from the kick without the need for a second touch.

Percentage of direct free kicks that a player or a team successfully puts on target, out of the total number of direct free kicks taken

Number of corner kicks taken by a team per 90 minutes of play (average). A corner kick is a method of restarting play after the ball has crossed the goal line, having last been touched by a defending player

Number of penalty kicks that a player or a team has taken during a specified period, such as a match, a tournament, or a season

Percentage of penalty kicks successfully converted into goals by a player or a team
